Approved By	Andy Smith
Date Approved	26 October 2009

Bug Fixes

ID	Description
1	SoE Execution - Tasks menu option missing for read only user
2	Elapsed Time on Home Page not working with Multi-Timezones....
3	Tasks available for technical user but no Activate button
4	Screen 450: Approve all tasks button visible when it shouldn't be
5	HR Drop downs don't exclude inactive users
6	Scheduling an SoE: Set the baseline start time to be equal to the Service Up time
7	Untrapped error on send email
8	Sent Emails Time not formatted correctly
9	Non-imp team members can alter backout participation
10	Stage maintenance and Task maintenance panels available to non-imp team members
11	Extra columns stage seq, stage seq id and stage status displaying on report
12	SMS Disabled still results in queuing of messages, this also means that Warning and Limit emails are sent to the client even though sms is disabled
13	Screen 114 Construction list needs condition on Schedule link so that only imp_manager can view
14	Add Tasks Screen 406 drop concatenation of name/role
15	Scheduling screen 146 - doesn't show RAG status anywhere
16	Fixed issue where clone SOE not populating imp team correctly
