Release Note

The content of this release note relates to new features, enhancements and bug fixes in ICEFLO for Mobile (M) and Enterprise (E) editions. These are defined in the tables below:

New Features

The following table defines the features which have been introduced as part of this release:

ID	Title	Description	M	E
1.	Multiple Session Tabs	Users can now have two sessions open and interact with both without being logged out. See What's New for more information.		✓

Enhancements

The following table defines the features which have been enhanced as part of this release:

ID	Title	Description	M	E
1.	Horizontal Scroll Bar Added	A horizontal scroll bar has been added to the top of the Tasks panel on Runbook Tasks (400) and Event Tasks (704). See What's New to view this enhancement.		✓
2.	Changes Saved Confirmation Moved	After updating a Task in Edit Task (408), the Changes Saved confirmation has been lowered so it does not obscure the action buttons.		✓
3.	Event Task Dependency View Enhanced	When observing the Event Task Dependency floatover this now shows you the Runbook title as well as the ID.		✓
4.	Additional Selectable Columns Added to Users Domain	You can now select additional columns on the Users domain (300). These include contact numbers and Users communication preferences.		✓
5.	Additional Selectable Columns Added to Team Members and Team Communications	Contact numbers have been added to the select columns option on Runbook - Team Members and Team Communications (screen 154).		✓
